

Looking to gain valuable work experience in Canada's digital economy before graduation?

Look no further than the **WIL Digital program** offered by the Information and Communications Technology Council (ICTC).

“Thanks to the generous support of ICTC, not only did I secure a **design internship in the tech industry**, but I was also introduced to a wonderful cohort of student interns at the WIL Digital e-Learning program. **It was a serendipitous and enriching experience**, learning more about artificial intelligence and collaborating with peers on a case study alongside my summer internship.

- Elise ZiYuan Wang

What is WIL Digital?

WIL Digital helps students develop the skills needed to enter and succeed in the workforce.

Eligible students can be supported with a wage subsidy of up to 50% of their salary, with underrepresented students qualifying for up to 70% coverage.

Through WIL Digital, you'll integrate your academic studies with quality workplace experience, making you more work-ready and better prepared for the job market.

How to Get Started:

- Share WIL Digital with your potential employer.
- Secure a work placement with an eligible business and have your employer begin the application on the etalentcanada.ca website.
- Eligible students must be Canadian citizens, permanent residents, or be registered as having refugee status in Canada and enrolled in a Canadian-accredited post-secondary institution.
