Welcome to ICTS’ WIL Digital Cybersecurity

The ICTS WIL Digital Cybersecurity program is designed to prepare future leaders in the cybersecurity field with the necessary skills and knowledge to address the increasing threats in the digital world.

1. Introduction
   - Program Overview
   - Program Objectives

2. Windows Hardening
   - Components
   - Common Misconceptions
   - Best Practices

3. NIST Framework: Define and Secure
   - Framework Overview
   - Key Components

4. NIST Framework: Analyse and Mitigate
   - Risk Assessment
   - Incident Response

5. Overview of Case Studies
   - Real-world Applications
   - Lessons Learned
